

LOGIC QUESTIONS

LOGIC QUESTIONS are still popular interview questions for START-UPS. This guide will help you answer these tricky brainteasers. Let's go!

1

ANALYTICAL

"HOW MANY PEOPLE PASS THROUGH HEATHROW EVERY DAY?"

It's all about critical thinking skills. Show how you are able to dissect the problem and come to a conclusion. The important thing is to walk through your process step-by-step.

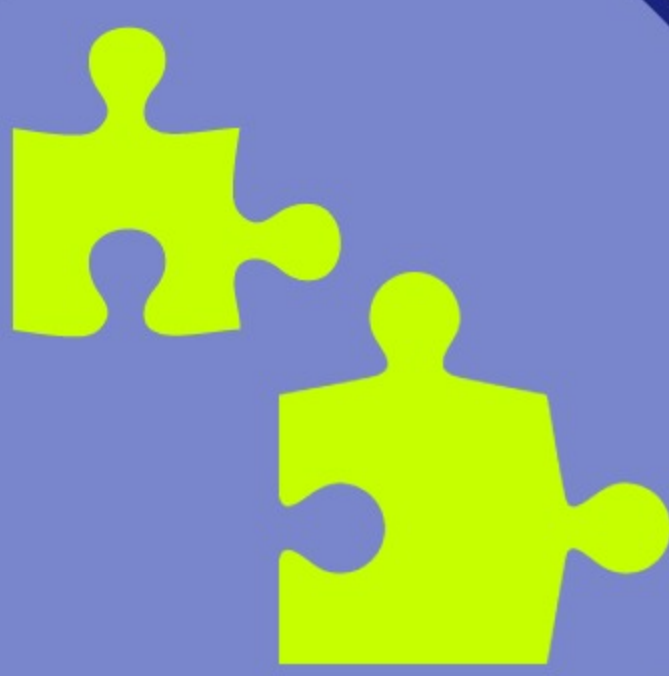

2

PROBLEM SOLVING

"HOW WOULD YOU TEST A CALCULATOR?"

Logic questions test your problem-solving ability. You have the opportunity to showcase your method & mental agility as you fill in the gaps. Show the employer you can solve their problem.

3

CREATIVE

"WHY IS A MANHOLE ROUND?"

You might not have prepared for this question but get creative with your answer! The interviewer wants to see that you can brainstorm multiple solutions. Show you can bring that little bit extra!

How to Answer Logic Questions?

Take your time & don't be afraid to ask questions. This will give you more clarity and allow you to make better assumptions

Break down the information into smaller parts. Round numbers off to simplify the process & make calculations easier

Talk through your answer with the interviewer to show how you reached your conclusion. Keep them engaged!
